North Jakarta, Indonesia

I am a Data Analyst with 1.5 years of hands-on experience and an academic background in Mathematics with a concentration in Data Science from UIN Syarif Hidayatullah Jakarta. I possess strong analytical thinking, solid statistical knowledge, and proven ability to transform raw data into actionable insights. I am proficient in R, Python, SQL, Tableau, and Power BI. Passionate about solving real-world problems through data, I combine technical skills with effective communication and a collaborative mindset. I am now seeking a Data Analyst position where I can contribute to data-driven decision-making and business growth.

Education Level

Universitas Islam Negeri Syarif Hidayatullah Jakarta - **South Tangerang, Indonesia** Sep 2020 - Sep 2023

Bachelor Mathematics, 3.70/4.00

- Staff of Research and Development Department at HIMATIKA UIN Jakarta.
- Head of Mathematic Competition PARSIAL 2023.
- Silver Medalist at International Invention Competition for Young Muslim Scientist 2022.
- Bronze Medalist at International Invention Competition for Young Muslim Scientist 2023.
- 3rd Place at Komet 2022 held by University of Jambi.
- 3rd Place at Edelwis 2022 held by HIMFARNAS STIKES Nasional.
- Student Achievement Award 2022 awardee.
- Digital Talent Scholarship awardee for Database Foundation from Kominfo.
- Best graduate of UIN Syarif Hidayatullah at the 130th commencement.
- Best thesis in the field of science.

Talent Scouting Academy (TSA) by Kominfo - **Central Jakarta, Indonesia** Mar 2023 - Jun 2023

Certificate Oracle Database Certified Foundations Associate. Exam Number: 1Z0-006

- Participated in a structured learning program covering database fundamentals and SQL
- Attended live sessions, material presentations, and guided class instructions
- Completed hands-on labs and practical exercises to reinforce technical understanding
- Engaged in interactive discussions with instructors and peers to deepen comprehension
- Passed assessments including quizzes, mid-term, and final exams
- Developed and completed a final project as part of program graduation

Work Experiences

PT Labdha Teknika Nusantara - **Central Jakarta, Indonesia** Oct 2023 - Present

Data Analyst

- Developed an automated quality control (QC) system using Microsoft Excel to validate clinical trial data from multiple personnel, reducing manual review time and improving data consistency
- Maintained detailed QC logs and proactively resolved data discrepancies through regular communication with CROs, ensuring compliance with data quality standards
- Collaborated with development team to design and optimize ETL (Extract, Transform, Load) processes, enhancing data integration and transformation efficiency
- Supported development of CDISC-compliant datasets (SDTM and ADaM) and contributed to documentation efforts, including define.xml, for regulatory submissions
- Proposed and implemented workflow improvements and automation strategies that increased efficiency in clinical data management
- Led data entry and management processes for clinical trial studies, ensuring high data quality and integrity from initial collection stages
- Worked cross-functionally with statisticians, medical writers, and project managers to deliver accurate data outputs within project timelines

PT Taudata Analytics - **South Jakarta, Indonesia** Jul 2023 - Jul 2024

Junioar Data Analyst Intern

- Supported product development by providing data-driven insights during the initial stages of product design and user testing
- Preprocessed raw data by performing data cleaning, formatting, and transformation to prepare it for analysis
- Conducted data quality checks to ensure accuracy, consistency, and completeness before further analysis and reporting
- Participated in product testing by identifying bugs and reporting usability issues, contributing to improved user experience
- Performed exploratory data analysis using tools like Microsoft Excel and Google Sheets to produce summaries and actionable insights for internal teams

PT BPR Artha Bersama - **Depok, West Java** Feb 2023 - Mar 2023

Internship

PT BPR Artha Bersama is a banking institution that focuses on providing services to the local community

- Conducted in-depth analysis of financial data, focusing on deposit and credit account metrics, to derive actionable insights.
- Designed and developed interactive visualizations in a financial dashboard to effectively communicate key performance indicators and trends.
- Successfully built a user-friendly financial dashboard using Looker Studio, optimizing data accessibility and decision-making processes for stakeholders.

Organisational Experience

PARSIAL (Performance, Art, Sportifity, Integrity, and Social) 2023 - **South Tangerang, Indonesia** Oct 2022 - Apr 2023

Head of Mathematics Competition

- Responsible for the execution of the Mathematics Competition.
- Conceptualized the Mathematics Competition event.
- Successfully attracted 93 participants from the Greater Jakarta area (Jabodetabek).

HIMATIKA (Himpunan Matematika) - **South Tangerang, Indonesia** Mar 2022 - Feb 2023

Staff of Research and Development Department

- Coordinated the C++ program, providing mathematics students with advanced subject matter expertise.
- Supervised COS (Competition of Us), ensuring students' preparedness and competitiveness in academic contests.
- Organized Dataverse (Data Science and Analytic Universe) events, attracting over 10 teams from various Indonesian universities, promoting data science and analytics.

Mathematics Computation Competition (MCC) - **South Tangerang, Indonesia** Jun 2021 - Aug 2021

Public Relations

- Successfully organized the Mathematics Computation Competition (MCC), serving as both a competitive event and a webinar.
- Aimed to ignite the passion and enhance the skills of university students across Indonesia in Mathematics and Computation, with a specific focus on Python and R programming languages.
- Managed a total of 14 competing teams, demonstrating efficient event coordination and logistical support.
- Attracted an impressive turnout of over 1,000 enthusiastic webinar participants, highlighting the widespread interest in the field of Mathematics and Computational Programming.

Skills, Achievements & Other Experience

- **Achievements** (2022): Student Achievements Award. This award reflects my competitive achievements in various academic, scientific, and creative competitions during my college years. I actively participated and excelled in these competitions, achieving high rankings and winning some of them.
- **Achievements** (2022): Awarded Silver Medal at the International Invention Competition for Young Muslim Scientist 2022 for the project "Quality Improvement of Graduates with Student Thesis Monitoring System Using Google Data Studio Dashboard."
- **Achievements** (2023): Awarded Bronze Medal at the International Invention Competition for Young Muslim Scientist 2023 for the project "Revolutionizing Islamic Financing: Exploring the Potential of Digital Platforms in Shariah-Compliant Lending."
- **Certifications** (2025): Microsoft Power BI Data Analyst, Google Data Analytics Certificate, IBM Data Analytics with Excel and R, Advanced Tableau by CFI, Data Analysis with Tableau by Tableau Learning Partner
- **Data Visualization Tools** (2025): Excel, Looker Studio, Power BI, R Shiny, Tableau
- **Languages**: Indonesia (Native), English (college student level)
- **Microsoft Offices**: Word, Excel, Powerpoint, Onenote.
- **Hard Skills** (2025): Proficient in statistical analysis, including data cleaning, hypothesis testing, regression analysis, and data visualization, experienced in transforming raw data into actionable insights to support data-driven decision-making. Skilled in using R, Python, and Excel for data manipulation and analysis. Experienced in using Power BI and Tableau to design interactive dashboards and reports. Familiar with SQL for querying and integrating data from various sources. Knowledge of data governance principles and best practices in data accuracy and compliance.
- **Projects** (2025): COVID-19 Data Extraction & Analysis from Wikipedia using R
- **Projects** (2023): Conducted a comprehensive analysis of infant mortality in Indonesia using data from the 2017 Indonesia Demographic and Health Survey.
- **Projects** (2023): Developed and implemented the BPR Artha Bersama Dashboard, powered by Looker Studio, providing an interactive platform for data-driven insights.
- **Projects** (2025): Created a dynamic car sales dashboard using Looker to track sales trends and support data-driven decisions.
- **Projects** (2025): Created the Adventure Works Quarterly Performance Report using Power BI to visualize key business metrics and track quarterly performance trends.

- **Projects** (2025): Created the CFI Capital Partners Trading & Analytics Dashboard using Tableau to deliver real-time insights on trading performance and market analytics.
- **Statistical Data Analysis Softwares**: Excel, Phyton, R, SPSS
- **Soft Skills** (2025): Strong Analytical Thinking and Attention to Detail, Effective Communication, Problem Solving and Critical Thinking, Teamwork and Collaboration, Time Management and Prioritization, Adaptability and Flexibility, Initiative and Leadership Potential, Decision Making Based on Data and Logic, Growth Mindset and Continuous Learning.
